

Permanent Mounted Agile VMS

Agile displays combine the flexibility of modular panel construction with patented Mega-Flux LED display technology, resulting in the most versatile, energy-efficient permanent VMS on the market.

Modular design means many available sizes

Custom-built to specification

Two (2) resolutions: 19mm (1.9cm) and 38mm (3.8cm)

Two (2) LED colours available: amber or red

Supports either 110/240v power input

Remote access via 3G/4G network, wireless or hardwired network connections

Completely independent, our permanent fixed signs have no moving parts

Easy to use and program
